Dear Syd Stapleton,

You are right. Seeing the name reminds me of it, Asher Harer.

As you go through the files, please also be alert to mention of the incidents, not only the names.

If I did not tell you the red-baiting effort was pretty well prepared.

As I remember it the arrangements for the meeting at which I spoke were made by Sylvia Weinstein, which may clue to a report without a name.

Ed Keating, then of Ramparts, warmed the audience up for me.

When we can we'll go over what we have and send you copies. I am about to leave on a trip to collect evidence for one of my suits. It will be following my return.

Mr. Lamont has my Arnold Lewis Kessler file.

Sincerely,

Harold Weisnerg
